

air travel guide

Check-in Desks. Upon arrival at the Warsaw / Modlin Airport, passengers are subject to certain procedures before boarding the aircraft. If you have hand luggage only, go straight with your ID document and boarding pass to the security checkpoint. If you have baggage to check in, go with your ID document and boarding pass to the Check-in counters. After checking in your luggage, go to the security checkpoint. In both cases, after passing through the security check, go to gates or go for shopping or a snack if you have time - the boarding pass contains information which „Gate” takes you to the aircraft. Now, you may calmly wait for the flight.

Special needs (PRM). Check-in desk no. 1 (first from the left side of the entrance to the terminal), is dedicated to handling people with disabilities and reduced mobility. It is marked with the appropriate symbols. Security check for people with disabilities is carried out at the standard checkpoints. People with disabilities are served out of turn.

SOS bars at the entrance to the departure hall are used for calling help/assistance.

Visibly pregnant women are served out of turn. Please note that the carrier has the right to refuse to accept a woman in advanced pregnancy, or may require a medical certificate allowing the possibility of air travel. Detailed rules for pregnant women travel are defined in the transport services rules in force at the time of ticket purchase from a selected carrier.

Baby care rooms Three rooms equipped with changing table, sink and feeding chair are available to travelers.

Get ready to travel. Check-in counters are opened three hours before the scheduled time of departure and we recommend arriving at the Warsaw-Modlin Airport at least so far in advance. Check-in counters are closed 40 minutes before the scheduled flight, while the boarding gates are closed 30 minutes before the scheduled departure. Late arrival at the airport may result in the refusal to board the plane.

Check the documents. At the beginning, remember to pack into your purse, trousers, or jacket all the necessary documents. Check in advance what documents are required in the country - a passport, ID Card, visa.

Print your boarding pass. The boarding pass contains all the necessary data concerning the passenger and the journey. Remember to print the boarding pass at home - you will avoid additional costs and save time.

Packing tips. Consider the time of the year, the weather, the weight and size of your hand luggage and checked baggage. The baggage carriage rules are carried out according to the rules and procedures of the chosen carrier. Prepare properly to the security check. Pack all liquids, aerosols and gels* into a single transparent, resealable, plastic bag, taking into account that each container must not exceed 100 ml. Please note that all packed liquids, aerosols and gels* should easily fit in the bag with a capacity not exceeding 1 litre. The bags may be purchased at the airport in dedicated machines before the security check.

Each passenger may carry only one such bag.

Check the flights status. Track the changes in schedules on the airport website modlinairport.pl or with the carrier. The information about the status of flights is usually given in advance. The carrier may also send an e-mail or SMS, remember about that!

Short-term parking

Long-term parking

Car parking. The airport parking offer allows you to leave your car on one of the two car parks. Short-term parking (PA1) is located approx. 50 m from the terminal, while the long-term parking (PA7) is located approx. 3 km from the passenger terminal. PA7 is the only parking which offers you fast transfer to the door of the passenger terminal, within its services.
